

MARTIN PORTER

TECHNICAL LEAD | SOFTWARE ENGINEERING LEADER | SOLUTION ARCHITECT

Crozier, VA | 804.201.1302 | martin@shapeconsulting.com

PROFESSIONAL SUMMARY

Software Engineering Technical Lead and Solution Architect with 20+ years of experience leading development teams, modernizing enterprise applications, and designing scalable software solutions. Deep experience with Angular, React, .NET, REST APIs, SQL Server, Microsoft Azure, AWS, Azure DevOps, CI/CD, and Agile delivery. Proven ability to build and mentor engineering teams, translate business objectives into technical strategy, establish application architecture, improve development practices, and lead complex software initiatives from concept through production.

CORE COMPETENCIES

Technical Leadership: Software Architecture • Technical Strategy • Team Leadership • Team Mentoring • Solution Design • Code Quality • Design Patterns • Application Modernization
Development: C# • .NET / .NET Core • ASP.NET MVC • REST APIs • Angular • React • TypeScript • JavaScript • HTML/CSS • Entity Framework • Node.js
Cloud & DevOps: Microsoft Azure • AWS • Azure DevOps • CI/CD • Git • IIS • Application Deployment
Data: SQL Server • T-SQL • SSIS • SSRS • MySQL
Delivery & Leadership: Agile/Scrum • Sprint Planning • Technical Roadmaps • Requirements Analysis • Stakeholder Management • Security Collaboration • Technical Presentations

PROFESSIONAL EXPERIENCE

Fidelity National Financial

Oct 2021 – Aug 2026

Technical Team Lead / IT Consultant

Led architecture, engineering, and delivery of a modern software platform replacing an aging accounting system.

- Built and led a nine-member cross-functional team consisting of developers, QA engineers, Scrum leadership, and UI design.
- Architected a scalable Single Page Application using Angular, .NET REST APIs, and SQL Server.
- Defined technical architecture, development standards, design patterns, and coding practices for the engineering team.
- Developed and maintained CI/CD build and deployment pipelines using Azure DevOps.
- Established Agile Scrum boards, sprint processes, and delivery practices to improve visibility and execution.
- Defined and prioritized technical work from initial concept through production delivery.
- Mentored developers through architecture reviews, design discussions, troubleshooting, and implementation guidance.
- Partnered with business stakeholders to translate business objectives into application requirements and technical solutions.
- Led daily technical discussions to identify architectural concerns, dependencies, and project blockers.
- Collaborated with enterprise security teams to ensure application security requirements were incorporated throughout development.
- Delivered Agile methodology training to organizational leadership to support broader Agile adoption.

Evolver Inc.

Jul 2020 – Oct 2021

Technical Team Lead

Led a software engineering team delivering a React, Angular and .NET Core application for the U.S. Senate.

- Led three developers through application architecture, development, troubleshooting, and delivery.
- Modernized a legacy .NET Framework 4.6 application to .NET Core 3.1 and migrated Entity Framework to EF Core.
- Architected a REST Web API incorporating JWT-based authentication and authorization.
- Established the foundational architecture and implementation approach for the React front-end.
- Led Agile ceremonies and implemented Azure DevOps boards to improve workflow visibility and delivery coordination.
- Mentored developers on software engineering practices, coding standards, and solution design.
- Translated functional requirements into technical designs in partnership with business stakeholders and leadership.
- Presented project progress, technical direction, and milestones to business owners and subject-matter experts.

Shape Consulting

Jan 2020 – Jul 2020

Senior Software Engineer

- Architected and developed a web application for the fitness industry using Angular, .NET Core REST APIs, Bootstrap, and SQL Server.
- Partnered with product ownership to translate business requirements into technical deliverables and project timelines.

WestCary Group

Nov 2019 – Dec 2019

Senior Software Engineer / IT Consultant

- Modernized application services by extracting business functionality into Node.js REST APIs.
- Assisted with AWS environment configuration and deployment of API and front-end applications.

Total Party Planner

Sep 2019 – Nov 2019

Senior Software Engineer / IT Consultant

- Designed and developed a configurable reporting utility allowing users to create reporting templates and assign application data sources.
- Worked directly with business stakeholders to translate reporting requirements into software functionality.

CarMax

Feb 2018 – Jul 2019

Senior Software Engineer / IT Consultant

- Served as Senior Developer/Architect on a large enterprise Angular application.
- Mentored developers on Angular architecture and development best practices.
- Contributed to application refactoring and major Angular modernization initiatives.

Acendre

Nov 2016 – Jan 2018

Technical Team Lead / IT Consultant

- Led a software development team and developed the technical roadmap for a client application initiative.
- Partnered with business stakeholders to define requirements and technical direction.
- Guided Microsoft Azure environment implementation and application deployment.
- Presented application and data-migration strategies to senior leadership.
- Mentored developers while remaining hands-on with application development.

EARLIER CONSULTING & ENGINEERING EXPERIENCE | 1998 – 2016

Held Senior Software Engineer, Consultant, Developer, and Programmer/Analyst positions supporting government, financial services, insurance, healthcare, and commercial organizations including Chesterfield County IST, BB&T, Enterbridge Technology, Virginia Division of Child Support Enforcement, Impact Makers, Whitlock, Core Consulting, Markel Corporation, First Northern National Bank, and Circuit City.

- Architected enterprise application and integration solutions using Microsoft technologies.
- Designed REST and service-oriented application architectures and led application modernization initiatives.
- Led and mentored software development teams across full software development lifecycles.
- Developed enterprise financial, insurance, document-management, reporting, HR, and government applications.
- Designed database integration, reporting, monitoring, and data-processing solutions.

EDUCATION & PROFESSIONAL DEVELOPMENT

Elizabethtown Community College, Kentucky • Reynolds Community College, Virginia • United States Army, Fort Knox, Kentucky
